Ma'am:

Greetings of peace and joy!

May I have the honor to tell you about the story of my newly hired co-teacher who is currently confined in Perpetual Soccour Hospital, Mrs. Minerva D. Canton.

Mrs. Canton was seven (7) months pregnant with a high blood pressure last August, 2018. On the 28<sup>th</sup> day of the month, when she was on her way to our school for her duty, riding on a motorcycle, she accidentally fell when the driver got out of balance because the road was too slippery. Because of this incident, she was advised to give birth to her baby through induce procedure. She gave birth to her baby at Maternity Hospital but sadly the baby was dead.

After giving birth to her baby, she was rushed to Perpetual Soccour Hospital for an emergency dialysis since there is a complication in her kidney. She had three (3) times a day of dialysis for one (1) week and having it twice (2) a day up to this time. Her blood pressure is still high and her eyesight becomes blurred. Her health condition becomes so complicated and needs for immediate medication which requires a large amount of funds.

With the above premise, I would like to ask financial assistance from the teachers of our Division.

Your help and support would save her life.

Thank you and more power!

Respectfully yours,

**Ms. Vigelia E. Traya**  
School Faculty President  
Cuanos Elementary School  
District of Minglanilla II
