This is an educational film characterized by a typical young, nerdy yet nice, bright, obedient and kind-hearted daughter/student that oftentimes bullied by her classmates in school. Electrica learned how to stop global warming and preserve the Mother Earth.

This film aims to promote environmental education on global warming that caused abnormalities in climate change and also, it teaches good moral & right conduct, values, as well as how to handle bullying in school.

Please find enclosed herewith is the Registration & Certification of MTRCB and other Government permits and a copy of 3 minutes trailer of the film for your reference.

Thank you in advance for your time to consider our interest.

Respectfully yours,

Dear Mr. Fabroa:

This refers to your letter dated 07 January 2019, requesting the department to issue an advisory for the screening of your film entitled "Electrica –the Chronicle" in all Metro Manila municipalities, barangays and nearby provinces and regions.

We appreciate your climate change advocacy and while the DENR wishes to convey our appreciation for your initiative to promote environmental awareness among our citizens, we are currently constrained by our mandate to positively accommodate your request since we do not have direct jurisdiction with the local government units like barangays and municipalities.

We look forward to future partnership with you within the bounds of our jurisdiction.

Thank you very much.
