"The Children's World Peace Summit will contribute to the
achievement of the United Nations Sustainable Development Goals
(SDGs), an action plan for humans, the earth and prosperity."

Application Guidelines for the 4th Children's World Peace Summit

General Incorporated Association, Peace Piece Project

<Purpose of this event>

We, the Peace Piece Project, believe that world peace means creating a planet where children can live in peace. To achieve this, we are raising children who will create peace.

- At the Children's World Peace Summit, teenage children representing countries around the world gather in the International Conference Hall of the House of Representative Members Office Building, which is actually used by world leaders, to exchange views on world peace, make peace proposals from the children's point of view, present ideas for realizing world peace, and each one of them pledges an action plan.

In the current peace education system, there are opportunities to learn about the history of war, but there are few opportunities to learn how to create peace. The purpose of this program is to give children the opportunity to learn and think proactively about peace with children of many nationalities during their precious teenage adolescents, when they are developing both mentally and physically. Through this summit, children will gain an interest in international cooperation and acquire the ability to play an active role in international society in the future.

* The Children's World Peace Summit, had held in 2022, is here.

<https://peacepieceproject.com/eng/cwps/2022report/>

<Application Requirements>

Applicants must be between the ages of 10 and 19 as of August 1, 2023.

Anyone between the ages of 10 and 19 may apply. Groups (videos showing more than one person) are also welcome to apply. *If you apply as a group, only one representative is allowed to make a presentation as a representative of the children.

Those who submit the most outstanding works will be invited to give a speech as a representative of children at the Children's World Peace Summit on August 3, 2022 at the House of Representative Members Office Building.

Please understand that there will be meetings and events on the following dates.

<Events it will need to attend if you are selected as a child representative>

The child representatives will be announced in late May 2023.

(i) Participate in online or in-person face to face meetings.

(Scheduled about twice in May and June) Language will be Japanese or English.

(ii) Please participate on-site at the Children's World Peace Summit

at the House of Representatives on August 1, 2023. We may ask you to participate in the summit online due to the spread of infection or other circumstances, but in principle, you will participate on-site.

(iii) Due to the interpreter, the speech language of the children's representatives at the Children's World Peace Summit should be Japanese or English.

(iv) As the Summit will be conducted in Japanese, it is necessary for the participants or their leaders to be able to understand the Japanese language instructions.

We ask that participants make their own travel and accommodation arrangements and bear their own expenses.

<The works and theme>

We are looking for speech videos of "Ideas to Create World Peace" for those aged 10-19 years old.

"What is Peace for you? Your Ideas for Peace in the World is."

~What is your idea of "peace"? Give a speech about your idea to make the world peaceful.~

The word "peace" in a nutshell has an abstract meaning. First, let's think about what "peace" means to you, and then try to define "peace" by saying, "Peace means _ _ _."

If you find it difficult to think about peace, you can think about world peace by thinking of someone around you whom you would like to make happy, and asking yourself, "What would make that person happy? There are many other ways to do this, such as looking at newspapers, thinking from recent news, or interviewing friends and family.

Then, once you have a definition of "peace," you can think about what you can do to achieve that world peace. For example, "Is there anything I can do through my committee or club activities?" or "Is there anything I can do through my dreams for the future?", let's think about what you and everyone else can and want to do together with your friends, school teachers, and family, connecting it to your own dreams. Please share your ideas for creating world peace through free thinking.

★ Notes.

We would like to see speeches that focus on "peace," such as "Peace is the fact that there is _ _ _" or "I feel peace when there is _ _ _."

If you are giving a speech from the perspective of "peace is the absence of _ _ _," give a speech about why the absence of _ _ _ would lead to peace. (Example: I think it would be peaceful if we

could eliminate weapons from the world and solve problems through discussion. I want to create peace by learning the languages and cultures of many countries and making friends with people from all over the world so that we can discuss conflicts when they occur.)

* Request to parents and teachers

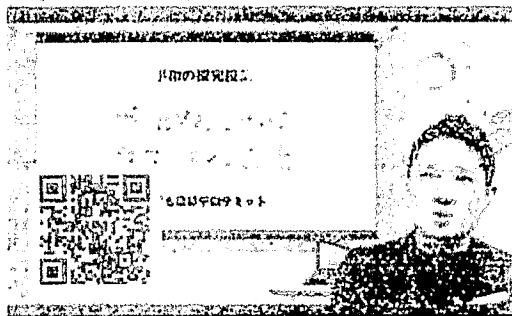

We hope that this will be an opportunity for students to learn how to create peace, rather than learning about the history of war and nuclear weapons in their own countries.

For example, the idea found in the past peace learnings is that we want to create world peace by telling the tragedy of war so that such history will not be repeated. Of course, that's important, but I want you to take it one step further. For example, "I want to create peace by learning the languages and cultures of many countries and making friends with people from all over the world so that we can solve problems through discussion without using weapons. We hope that children will be excited to come up with ideas to help their actively contribute to world peace.
